EDUCATION

Bachelor of Technology in Electronics and Telecommunication Engineering <i>Veer Surendra Sai University of Technology, Odisha</i>	CGPA: 8.86 2023 – 2027
Deepika English Medium School <i>Central Board of Secondary Education</i>	84.40% 2023
Guru Nanak Public School <i>Central Board of Secondary Education</i>	92% 2021

SKILLS SUMMARY

Languages: Python, C/C++ , JavaScript , HTML/CSS
Frameworks: NodeJs, Express.js, Next.js, Tailwind, React, Django
Developer Tools & Others: Git, GitHub, Linux, VSCode
Databases: MySQL, MongoDB
Coursework: Data Structure and Algorithms, DBMS, AI-ML, OOPs

EXPERIENCE

Rourkela Steel Plant <i>Summer Internship</i>	May 2025 - June 2025 Rourkela, Odisha
• Gained hands-on exposure to industrial communication systems used in steel manufacturing operations. • Studied telecom infrastructure, signal transmission, maintenance procedures, and safety protocols.	
Bharat Sanchar Nigam Limited <i>Winter Internship</i>	December 2024 - January 2025 Bhubneswar, India
• Worked on IP network design using Variable Length Subnet Masking (VLSM). • Analyzed subnet planning and routing concepts to optimize bandwidth utilization.	

PROJECTS

Student Attendance Management System	Link
• Developed a web-based Student Attendance Management System to automate and digitize the attendance process in educational institutions. • Designed a responsive and user-friendly interface using HTML, CSS, Bootstrap, and JavaScript to ensure smooth interaction across devices. • Implemented the backend using Django (Python) to handle business logic, user authentication, and data processing following the MVT architecture. • Created role-based access for Admin, Teacher, and Student with different permissions and functionalities.	
Saffron-Box: A digital marketplace that connects Indian artisans and MSMEs with the global Indian diaspora through India Post, enabling trusted cross-border delivery of authentic Made-in-India products worldwide.	Link
• Designed a digital marketplace platform connecting Indian MSMEs, artisans, and local sellers with the global Indian diaspora across 219 countries using India Post's logistics network. • Enables trusted cross-border delivery of authentic, Made-in-India cultural and ethnic products at standardized transit costs. • HTML, CSS, JavaScript, Bootstrap for frontend; Node.js for backend; MySQL for database management; REST APIs for logistics and payments; Git & GitHub for version control; cloud deployment using AWS.	
To-do-list	Link
• Developed a responsive To-Do List web application for managing daily tasks efficiently. • Implemented core features such as add, edit, delete, and mark tasks as completed using JavaScript DOM manipulation. • Ensured data persistence across sessions using Browser Local Storage. • Designed a clean and user-friendly interface using HTML and CSS, with version control managed through Git and GitHub.	

POSITION OF RESPONSIBILITY

1. Organising Committee: **TEDxVSSUT 2025, Vassaunt-2025.**
2. Member: **IEEE Society, Entrepreneurship Cell & Audio Visual Club**
